CUBEOpen 2011 Exhibition

Description:

See Justine Cook ARBS at the CUBEOpen. Her film 'That Roads May Rise' is part of the exhibition. The film is the culmination of her time as artist in residence in a working quarry. CUBE Gallery is one of Europe's most exciting art, architecture and design centres, dedicated to broadcasting the ideas and issues that lie behind the buildings, spaces and cultural networks that make up our built environment. The CUBEOpen was launched in 2007. Artists, architects and designers are invited to apply with work that reflects current trends and debates surrounding the spaces and places in which we live. Each year the exhibition highlights contemporary insights into the urban environment. The CUBEOpen receives applications from around the globe and visitors to the exhibition will have the unique opportunity to see the diverse and engaging ways that artists, architects and designers have been influenced by our surroundings. "one of the coolest and classiest galleries around" The Guardian
